

Latrobe Office
Sewer and Water Design Drafter
Full Time

Gibson-Thomas Engineering Co., Inc., is looking to recruit a CAD design drafter on a permanent basis to join our sewer and water team based in Latrobe, PA. Must have a wide range of design and drafting experience with Autocad Civil/Suite and Carlson Land Development software for sewer, water and stormwater designs

Duties include:

- CAD drafting for projects, sewer, water design and relocations
- Liaison with Project Manager, designers and construction inspectors.

Requirements:

- A minimum of five years proven drafting experience and demonstrated experience using CAD packages
- Exceptional writing and verbal communication skills
- Familiarity with local authority and state government approval and regulatory requirements
- A commitment to self-improvement and continuing professional development

Employee Benefits

- Gibson-Thomas Engineering Co., Inc., offers a complete benefit package which includes health care, dental, vision, long-term disability, 401 K and life insurance.
- Salary will be negotiated/commensurate with experience.
