

Gibson-Thomas Engineering is a full-service civil engineering firm based in Pennsylvania that provides engineering design and construction inspection services to clients on projects of varying sizes and complexity. We are a growing firm with Pennsylvania offices in Latrobe, Camp Hill, Indiana, Wexford, Fayette, and Washington.

### **The Role**

We have an opportunity for a **Senior Land and Site Development Engineer/Project Manager** to work primarily out of our Wexford Office. Ideal candidates for this position will have a minimum of 15 years of experience in Site/Land Development Engineering and as well as Project Management and client coordination experience.

### **Responsibilities**

- Project management and development experience.
- Ability to lead a design group to complete tasks and develop said design group's technical capacity.
- Business development activities to grow and enhance our client base.
- Experience in design on multidisciplinary projects ranging from preliminary land development through full permitting for all aspects of civil design including but not limited to: zoning issues, grading and drainage, erosion control plans, stormwater plans, road and sidewalk design, water and sewer systems, subdivision layouts.
- Knowledge of local land development procedures necessary to deliver a project to completion.
- Be able to assist clients in ownership and right-of-way issues.
- Coordination of design work with other disciplines as needed.

### **Qualifications**

- Bachelor of Science degree in an Engineering field.
- Pennsylvania Professional Engineer's license.
- Working knowledge of current industry design software including MicroStation.
- Ability to work independently as well as lead and work in multi-disciplinary teams

### **Benefits Eligible for this Position**

- Health and disability insurance benefits
- Paid flexible vacation time and holidays
- 401(k) plan with company funded match
- Flexible work environment
