

Gibson-Thomas Engineering is a full-service civil engineering firm based in Pennsylvania that provides engineering design and construction inspection services to clients on projects of varying sizes and complexity. We are a growing firm with Pennsylvania offices in Latrobe, Camp Hill, Indiana, Wexford, Fayette, and Washington.

The Role

We have an opportunity for a **Structural Engineer** to work primarily out of our Camp Hill Office. Ideal candidates for this position will have a minimum of 7+ years of experience in Structural Engineering and PennDOT-related Bridge Design. NBIS experience and a CBSI certificate are a plus.

Responsibilities:

- Serve as the Project Engineer on major, local, and regional transportation structural projects.
- Assist in field reconnaissance and bridge inspections.
- Prepare plans, estimates, specifications, conduct studies, develop reports, and support all aspects of the engineering project.
- Perform/prepare and/or check complex structural analysis and design calculations, geometric/bridge layouts, construction specifications, and material quantity calculations.
- Work directly with Project Manager.
- Participate in professional industry organizations.
- Follow QA/QC practices.
- Perform structural tasks as part of project development, including plan and report production.

Qualifications:

- B.S. in Civil Engineering from an ABET accredited University.
- Professional Engineers (PE) License
- 7+ years of progressive structural engineering.
- Strong written and verbal skills.
- Preferred Certified Bridge Safety Inspector (CBSI) Certification, or ability to obtain.
- Experience working on projects for PennDOT, PTC or related agencies is required.
- Strong Work Ethic
- Proficient knowledge of AASHTO bridge design specifications, PennDOT bridge design software, and structural analysis programs such as STAAD required.
- Ability to perform site visits / inspections.
- Experience with preferred engineering client design software programs such as: MicroStation, AutoCAD, Microsoft Office Suite, Bluebeam, etc. Proficient in using MicroStation and Industry Supported 3D Modeling Software.
- Valid driver's license with demonstrated safe driving practices.

Benefits

- Flexible work environment
- Paid flexible vacation time and holidays
- Health and Disability Insurance Benefits
- 401(k) plan with company funded match
